

Part B Insider (Multispecialty) Coding Alert

Diagnosis Coding: Know Your OB-Gyn Diagnoses With This Handy Chart

Plus: Get to know the ICD-10 codes for these conditions.

Doctors who treat gynecological conditions don't only deal with pregnancy, and it is often up to the coder to link the correct diagnoses to the treatment codes.

Use the anatomic drawing below to locate the site described, and match that to the sampling of applicable ICD-9 and ICD-10 codes in the chart at the bottom of this page.
