

Part B Insider (Multispecialty) Coding Alert

In other news ...

- CMS aims to help you decipher the ins and outs of the PQRI program with new educational products. If you're unsure of how to claim your PQRI bonus, check out CMS's educational product offerings, which range from tips on electronic health record (EHR) reporting to information on how to get started with reporting PQRI measures groups.

Even if you've already perused these documents, you may want to download the new version because CMS recently updated the information for 2010.

To access the educational materials, visit the CMS Web site at www.cms.hhs.gov/PQRI.
