

Part B Insider (Multispecialty) Coding Alert

In other news...

Are you a Medicare billing pro? CMS now offers certification so you can prove that.

On March 22, CMS announced the inception of its Medicare Billing Certificate Programs for both Part A and Part B providers. To achieve the distinction, you'll register for the program, then take a 21-hour course about Medicare billing followed by a post-assessment.

To read more about the certification, visit at <http://www.cms.gov/MLNproducts> and click on "Web-based training modules."
