

## Part B Insider (Multispecialty) Coding Alert

### Reinstated Semen Code Target of Many Edits

The **Centers for Medicare & Medicaid Services** reinstated semen analysis [G0027](#) as of last January, but now it becomes mutually exclusive with another semen analysis code, 89321. It also becomes a component of semen testing codes 89300-89320. And clinical pathology consultation codes 80500-80502 became components of G0027 as well.
