Fluoroscopy Cheat Sheet: Always Get Paid for Injections

Reporting fluoroscopic guidance with epidural injections is a challenge for even the most-seasoned PM&R coders, so the clip-and-save chart below can help you determine when the fluoroscopy codes apply to your injection claims.

Effective Jan. 1, 2003, the NCCI started bundling 72275 into the epidural [CPT 62310](#) and 62311. Append modifier -59 (Distinct procedural service) to 72275 **only** if you perform epidurography and an epidural injection during separate sessions on the same date of service.
