Hospice News: Hospices Merge, Sell

Market consolidation in the hospice industry continues.

In Las Vegas: **Nathan Adelson Hospice** will acquire **Las Vegas Solari Hospice Care**, owned by **HealthCare Partners Nevada**, NAH says in a release. Non-profit NAH serves an average of 400 patients daily, says the agency founded in 1978.

In South Carolina: Non-profit **Hospice of Laurens County** will merge with **Hospice & Palliative Care Charlotte Region**, according to press reports. "We look forward to helping them gain strength and meet the challenges of the changing health care industry," says Charlotte CEO **Pete Brunnick** in the Charlotte Observer. Charlotte has four locations in North and South Carolina and \$60 million in annual revenues, the newspaper says.
