### Hospice News: Hospices Must Wait A While Longer For TPE Results

Home health agencies are getting some vital Targeted Probe & Educate info from HHH Medicare Administrative Contractor **CGS**, including that 80 percent of reviewed providers flunked their first round. But hospices are going to have to wait a while longer for similar information.

"Currently not enough Hospice providers have completed Round 1 to report Hospice progress," CGS says in its recently posted TPE update at [www.cgsmedicare.com/hhh/pubs/news/2018/0518/cope7655](http://www.cgsmedicare.com/hhh/pubs/news/2018/0518/cope7655).

But with the latest Targeted Probe & Educate review results not looking good for other provider types, now may be the time to learn more about the program. A new five-minute video about TPE from the **Centers for Medicare & Medicaid Services** may help.

Access the video that reviews the TPE process at <https://youtu.be/wXc-ZSU9Pwc>.
