Hospice News: Report To Congress Features Hospice Fraud

OIG applauds DRG proration.

The **HHS Office of Inspector General's** Semiannual Report to Congress is another chance for the watchdog agency to paint the hospice industry with a broad fraud and abuse brush.

The 107-page report retreads two reports on hospice surveys that drew widespread media attention this summer, and applauds the **Centers for Medicare & Medicaid Services'** implementation of hospital DRG proration for "early" discharges to hospice.

The report is at <https://go.usa.gov/xpPrm>.
