### Hospice News: SoCal VNA Begins Work On Inpatient Hospice Facility

A new hospice inpatient facility is coming to Claremont, Calif. The **Visiting Nurses Association and Hospice of Southern California** is renovating a house it purchased four years ago, reports the Contra Costa Times.

The final result, projected for next year, should be a 3,200 square foot property with six private rooms known as **Hospice Home**, the VNA says. There are about 400 full service hospice facilities in the nation, CEO **Marsha Fox** told the Times.
