Hospice News: Tap New Medicare Training On HIS Coding, HQRP

Help for hospices is now available from Medicare in a number of new educational offerings.

The **Centers for Medicare & Medicaid Services** has released two self-directed training modules via its **Youtube** channel. The modules cover Hospice Item Set coding and navigation of the websites pertinent to the Hospice Quality Reporting Program (HQRP), CMS says in a release.

The HIS coding training has eight modules while the HQRP website training has five modules.
