Hospice News: Tune In For New Hospice Item Set Training From CMS

Get vital details on the new HIS Manual.

Hospices should mark their calendars for Hospice Item Set training from CMS.

On June 17, the **Centers for Medicare & Medicaid Services** will discuss the new HIS Manual (V1.02) in a MLN Connects National Provider Call, CMS says in an email to providers. "This call will focus on updates that were made to the HIS Manual from V1.01 to V1.02 and provide clarifications of HIS definitions and expectations for use."

You can register for the session at www.eventsvc.com/blhtechnologies.
