

Home Health ICD-9/ICD-10 Alert

Education: Need to Brush Up On Late Effects and Risk Adjustment? We've Made it Easy

Check out upcoming **Eli** audioconferences on late effects coding and the impact of risk adjustment on coding for OASIS-C.

- **Coding Late Effects In Home Health.** Wed. July 15, 1 p.m. ET. Because there is no chapter in the ICD-9 manual specific to late effect codes, these codes are very often listed inaccurately or not coded at all. Join coding expert **Tricia A. Twombly** to identify the difference between a late effect code vs. an acute code, when it's appropriate to use late effect codes and how it might affect reimbursement. For more information, go to www.audioeducator.com/home-health/coding-late-effects-home-health-130711.html or call 1-866-458-2965.
- **The Impact Of Risk Adjustment On Coding For OASIS-C.** Wed. Sept. 7, 11 a.m. ET. Risk adjustment is an important part of home health and will become even more important as the industry moves toward pay for performance. Join coding expert **Tricia A. Twombly** to gain insight into the updated overview of risk adjustment and outcome measures and a better understanding of the relationship between coding and risk adjustment.

Note: To browse and register for **Eli** home care and hospice audioconferences, go to www.audioeducator.com and select the "home health" or "hospice" tabs in the top blue bar. Or call 1-866-458-2965. All sessions are available via CD or transcript after taking place.
