

Home Health ICD-9/ICD-10 Alert

ICD-10 Coverage

Our name may still be Home Health ICD-9 Alert, but we're here to help with your ICD-10 transition. Each month, we'll include articles that will help you make sure you're on track for the changes ahead as well as give you practical information about how to code common diagnoses in the new code set. We'll continue to increase our ICD-10 coverage as Oct. 1, 2014 draws nearer.
