Inservice Education: Master The Confusing World Of Wound Care Coding

Plus, get 15 percent off your next audioconference.

Are you looking for timely topics for your next coding inservice? These audioconferences will get you started off right in 2008.

Wound care coding continues to present home health agencies' coders and clinicians with considerable challenges. From reporting an accurate claim to making sure you receive the reimbursement your agency is entitled to based on the care provided, you have a lot to keep track of. Join **Judy Adams, RN, BSN, HCS-D**, for **Your Trusty Guide to Wound Care Coding in Home Health** and make sure you don't lose another dollar to inaccurate wound care coding! Thursday, January 17, 2008 at 1:00 pm EST.

Learn more: <http://www.audioeducator.com/> .

Opportunity: If you missed Adams' Nov. 27 presentation "**Tackling V57.1 and Other Common Coding Dilemmas**," don't despair. You can find out how to keep your head above water now that the prospective payment system stops paying extra for the most common diagnosis codes agencies have used for the last seven years.

Bonus: To register, call (800) 508-2582 or visit www.audioeducator.com. Mention code 15%OFFAUDIOHH for 15 percent off the cost of your audioconference.
