

## Long-Term Care Survey Alert

### Clip 'N Save: When Can Your Facility Request IDR Based On Survey Revisit Results Or Previous IDR Outcome?

This handy chart provides the answers.

A facility may request informal dispute resolution for each survey that cites deficiencies, according to a new **Centers for Medicare & Medicaid Services** memo.

The table to the right indicates when facilities may request IDR based on the results of a revisit or as a result of the previous IDR outcome.

A facility may not request a re-review of a previous IDR decision, says CMS.
