

Long-Term Care Survey Alert

Staffing: AHCA OFFERS CNA SCREENING TEST

There's no crystal ball that can tell you whether or not your best staff will stay at your facility, but the **American Health Care Association** and the **National Center for Assisted Living** have developed another method to help detect certified nursing assistant retention problems.

AHCA and NCAL have developed a CNA Pre-Employment Test, designed to help identify the strongest applicants and those most likely to stick around.

The test, administered and scored using PC-based software, takes less than 30 minutes to complete and examines skill levels, knowledge, performance and potential for longevity.
