

Long-Term Care Survey Alert

What Do You Think?

Question: Has the Centers for Disease Control & Prevention hand hygiene guideline changed recently?

Answer: No. The guideline "came out in 2002 and hasn't changed," says **James Marx, RN, MS, CIC**, principal of Broad Street Solutions in San Diego. "I imagine it will be up for some reviews in the next year," he adds.

You can review the guideline at <http://www.cdc.gov/mmwr/pdf/rr/rr5116.pdf>.
