Coding Quizzer: How Would You Code This Resident's ADL Functional Rehab Potential At G8?

Mr. K has hemiplegia secondary to a CVA. He receives extensive assistance in bed mobility transfer, dressing, toilet use, personal hygiene and eating.

He is totally dependent in locomotion (wheelchair). Whenever he has tried to do more for himself, he has experienced chest pain and shortness of breath. Both Mr. K and direct care staff believe that he is involved in self-care as much as he is physically able.

Coding options and instructions:

Check all that apply. If none of these items apply, check NONE OF ABOVE.

- a. Resident believes he/she is capable of increased independence in at least some ADLs
- b. Direct care staff believe resident is capable of increased independence in at least some ADLs
- c. Resident able to perform tasks/activity but is very slow
- d. Difference in ADL self-performance or ADL support, comparing mornings to evenings

- e. NONE OF ABOVE

The answer is option e: "none of the above"
