

## MDS Alert

### Test Yourself (Answer) Where Do You Capture Restorative Nursing on the MDS?

The answer is option 3. Code restorative nursing in Section P3 and H3a or H3b, according to **Rita Roedel, RN**, in a presentation on restorative nursing at the March 2009 American Association of Nurse Assessment Coordinators meeting in Kansas City, Mo. (H3a and H3b count as one service even if both are provided, according to the RAI User's Manual.)
