Education: Make Your Resumption of Care Visit Timely

Question: When does a resumption of care visit need to be completed?

- A) Within 24 hours of the patient's return home
- B) Within 48 hours of the patient's return home
- C) Within 48 hours of the referral
- D) Within 24 hours of the referral

Answer: B

For the pertinent rule, refer to 42 CFR 484.55 d (2) which states, "The comprehensive assessment must be updated and revised ... within 48 hours of the patient's return to the home from a hospital admission of 24 hours or more for any reason other than diagnostic tests."
