Education: These Expert Tips will Ease Your ICD 10-CM Transition

There's no time like the present to get your ICD-10 plans underway.

Taking the time to prepare for the ICD 10-CM transition now will ease the changes your agency faces next year.

Join expert speaker **Andrea L. Manning, BS, RN, HCS-D, COS-C** for a 60-minute live webinar, **ICD 10-CM: Transition Strategies for Home Health Agencies**, Wednesday, Feb. 6, 1 pm ET. Get concrete advice on what areas of your HHA's operations the conversion to ICD-10 will affect and what you should be doing to prepare. Also, you'll learn how to plan out a timeline for operational assessment, training and implementation.

You can even pose questions about your own unique situation during the Q&A session at the end of the webinar event. For more information, visit www.audioeducator.com/home-health/icd-10-transition-for-home-health-020613.html or call 1-866-458-2965.
