Quality Improvement: START BY CREATING YOUR OWN IMMUNIZATION PROTOCOL

Make use of extensive QIO resources.

You need not reinvent the wheel: this sample immunization protocol will give you a place to start. Begin by looking at your own procedures says Chicago-based regulatory consultant **Rebecca Friedman Zuber**. Figure out which processes you already do and what you need to add or modify.

This sample protocol from the Texas QIO, **TMF Health Quality Institute** (at [TMF.org](https://www.tmf.org)), can be your catalyst:
