

Health Information Compliance Alert

Security Tool: CHART HELPS YOU JUMPSTART YOUR SECURITY INCIDENT COMMUNICATION

Guard against serious data omissions with this handy form.

You know the HIPAA security rule requires your facility to report security incidents--but are you sure you're capturing all the information you should?

Use the following form, prepared by **Greg Jones** at the **SANS Institute**, as a guide to help you develop a documentation system that will capture how you handle security breaches. This form could be the difference between your facility's security rule compliance and possible HIPAA violations!
