

Modifier Coding Alert

Clip and Save: Call Yourself a Modifier 54 and 55 Pro with Help From This Chart

Answer questions with a yes or no to learn how to bill surgical and postsurgical services.

When your physician coordinates a patient's surgical care with another provider, knowing which modifier to use for proper payment can get confusing.

Attaching modifiers 54 (Surgical care only) and 55 (Postoperative management only) to the appropriate surgical code for the appropriate provider is no longer a mystery for you if you keep this chart handy for whenever you need it in split care situations.
